PROFESSIONAL SUMMARY

Risk and compliance professional with 4+ years across manufacturing operations, audit coordination, and third-party risk. Built vendor-risk and remediation processes for 25+ entities, automated compliance reporting, and now pursuing an M.S. in Cybersecurity & AI.

CORE COMPETENCIES

- **Risk & Governance:** Third-party due diligence, risk assessments and registers, control evidence, audit coordination, and executive risk reporting.
- **Frameworks:** ISO 14001 and GRI audit practice; NIST CSF 2.0 portfolio work, academic familiarity with ISO 27001 and ISO 42001.
- **Tools:** Power BI, Power Apps, Power Automate, Excel, Python, and SAP Sustainability Control Tower.
- **Leadership:** Cross-functional leadership, vendor coordination, executive presentations, client communication, and change management.

PROFESSIONAL DEVELOPMENT

- COMPTIA Security + (In progress, Expected Oct 2026)
- IT Auditing & GRC
- EY Technology Risk Simulation

PROJECTS

- **GRC Risk Register & Audit Dashboard:** Built a 50+ risk NIST CSF 2.0 portfolio register with likelihood-impact scoring, a Power BI dashboard, maturity assessment, remediation roadmap, and sample control-testing log.

EDUCATION

University of North Carolina at Charlotte

M.S. in Cybersecurity & AI — GPA 4.0.

Expected May 2027

Coursework: Network Security, Cloud Security (AWS), AI Risk Management, Trustworthy AI and Ethics.

University Technology Malaysia

B.S. Mechanical Engineering — GPA 3.3

Sept 2017 – June 2021

PROFESSIONAL EXPERIENCE

GTM Executive (Remote & Part-time) — Knowledge Agents

Aug 2026 – Present

Dallas, United States

- Support AI solution sales through client outreach, presentations, and customer-facing content for small and medium businesses.
- Test new product features and share findings with the development team and CEO to inform product improvements and refine sales strategy.

Sustainability Risk & Compliance Manager — British American Tobacco

May 2024 – Dec 2025

Islamabad, Pakistan

- Directed key ESG initiatives and presented the 2030 Sustainability Strategy to Directors of Operations, Supply chain & Finance, securing risk remediation funding while cutting the CapEx approval cycle by 60% (from 5–6 months to just 2 months).
- Led ISO 14001 and GRI audit preparation across leaf and warehouse operations, organizing evidence, identifying gaps, and tracking corrective actions through closure.
- Built a third-party risk process covering 25+ external entities, including due-diligence intake, vendor risk profiles, a live risk register, and remediation follow-up.
- Built EHS 101, an automated safety-onboarding and completion-tracking workflow for employees and third-party workers; earned BAT's Technology Best Practice Award.
- Automated compliance reporting with Power Apps, Power Automate, and Power BI, reducing manual effort by approximately 70% and improving data accuracy by approximately 45%.

Team Lead, Operations — British American Tobacco

Apr 2022 – May 2024

Islamabad, Pakistan

- Led a 73-person operations team supporting 80M+ units per day; improved assigned-line OEE from approximately 82% to 86% and reduced downtime by 15%
- Applied Integrated Work System methods and trained approximately 20 internal trainers across four shifts in quality, root-cause analysis, and autonomous maintenance.

Business Development Associate — Zameen Real Estate Pakistan

Nov 2021 – Apr 2022

Pakistan

- Boosted sales conversions by revamping the digital outreach strategy, using engaging social media platforms and custom digital flyers to clearly pitch real estate projects. **PKR 50M+** in deals; Highest Sales Award (2021).

Production & Engineering Executive — Hyundai Pakistan

June 2021 – Nov 2021

Pakistan

- Coordinated production and engineering teams on a paint-shop expansion that doubled paint-shop capacity from approximately 40 to 80 units per hour, relieving a plant bottleneck.
